CAREER OBJECTIVE

To secure a Software Development Intern / Full Stack Web Development Intern position where I can apply my knowledge of Java, Python, and web development to contribute meaningfully to real-world projects, while gaining practical industry experience and continuing to grow as a well-rounded developer.

PROFESSIONAL SUMMARY

Computer Science and Business Systems undergraduate with a strong passion for Software Development and Web Development. Proficient in Java and Python, with hands-on experience gained through academic projects spanning full-stack web development and database management. Recognized for strong problem-solving, communication, and teamwork skills, along with quick adaptability to new technologies and tools. Currently expanding technical expertise in Cloud Computing. Seeking a Software Development Internship to apply academic knowledge, contribute to real-world projects, and grow within a professional engineering environment.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Business Systems

Akshaya College of Engineering and Technology

CGPA: 8.05/10 | Expected Graduation: 2028

HSC

Corporation Girls Higher Secondary School, Coimbatore | Percentage: 68.8%

SSLC

Corporation Girls Higher Secondary School, Coimbatore | Percentage: 74.8%

TECHNICAL SKILLS

Programming Languages: Java, Python

Web Technologies: HTML, CSS, JavaScript

Database: MySQL

Version Control: Git, GitHub

Development Tools: Visual Studio Code, Eclipse

Relevant Coursework: Data Structures, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Machine Learning, Operating Systems

Currently Learning: Cloud Computing

PROJECTS

College Event Management System | HTML, CSS, JavaScript, MySQL

- Designed and developed a responsive web application with a clean, user-friendly interface for managing college events.
- Built an event registration system enabling students to browse and register for events seamlessly across devices.
- Implemented a secure user authentication module for both students and administrators, ensuring controlled access to the system.
- Developed an admin dashboard allowing organizers to create events, monitor registrations, and manage event details efficiently.
- Integrated a MySQL database to reliably store and manage event, user, and registration data.

Library Management System | Java, MySQL

- Developed a Java-based Library Management System to streamline book management and student record-keeping for library staff.
- Implemented complete CRUD (Create, Read, Update, Delete) operations to manage book inventory and student data efficiently.
- Built a search functionality enabling fast, accurate retrieval of book and student records by key attributes.
- Designed and integrated a MySQL database to maintain structured and consistent library data.

Traffic Violation Detection System | *Python, OpenCV, YOLOv8*

- Built an AI-powered traffic monitoring system to detect vehicles and flag potential traffic violations in real time.
- Applied the YOLOv8 model for accurate vehicle detection and classification from video input.
- Implemented number plate recognition to identify vehicles associated with detected violations.
- Utilized OpenCV for image processing and computer vision tasks to improve overall detection accuracy.

CERTIFICATIONS

- Full Stack Web Development
- Java Programming
- Python Programming
- Digital Marketing Fundamentals

ACHIEVEMENTS

- Successfully developed three academic software projects spanning full-stack web development, database management, and computer vision.
- Built responsive web applications using Java, Python, HTML, CSS, JavaScript, and MySQL.
- Maintains an active GitHub profile showcasing software development projects.
- Continuously learning Cloud Computing to strengthen technical knowledge and stay current with modern development practices.

SOFT SKILLS

Problem Solving, Communication, Teamwork, Adaptability, Quick Learning, Time Management

INTERESTS

Software Development, Web Development, Machine Learning, Cloud Computing

LANGUAGES

English, Tamil, kannada
